

Delivering
the *ab-ha*
moment you're
looking for.

HEALTHCARE PERFORMANCE PARTNERS™

HEALING HEALTHCARE™ Lean Healthcare Simulation

Demonstrating how Lean works in Healthcare.

While the concepts of Lean are fairly straightforward, applying the tools to our daily work can be counter-intuitive. Not to mention your challenges around convincing tough skeptics that there is **Waste in healthcare**. This is where Healing Healthcare™ comes in. This entertaining and informative pharmacy simulation helps visualize the Waste in healthcare, and how Lean concepts work. Participants are led through multiple rounds of a simulated pharmacy setting in which they learn to apply Lean concepts to any healthcare process. Healing Healthcare™ is a key component of launching a Lean Healthcare initiative.

Call HPP today to begin delivering *ab-ha* moments to your organization. You can schedule a simulation, and even arrange a license purchase for your site to continue this training on your own.

The success of this approach speaks for itself.

- Clients have seen significant results from project activity initiated by staff who merely participated in the training simulation.
- The simulation fosters an environment of creativity within teams and builds confidence to apply Lean techniques.
- The simulation always generates excellent reviews, both on its own and when used as part of a Lean Healthcare implementation.
- Healing Healthcare™ has been highly rated at multiple national Lean Healthcare conferences.
